

## **FORMEES EQUIPPED FOR DIGITAL EVANGELIZATION IN A SYNODAL CHURCH THROUGH FREE PRACTICAL TRAINING IN NAIROBI.**

A practical training program on "Digital Evangelization in a Synodal Church" was launched for seminarians, juniors, novices, and postulants in Nairobi, beginning Friday, 10 April 2026, at the LCMC Training Hall, Hekima/HIPSIR off Riara Road. Organized under the Synodality Initiative Team and sponsored by Porticus, the free three-session program (3:00-5:00 PM) equips 28 formees per cohort with essential skills for responsible and mission-oriented engagement in digital spaces. Participants are being formed to become critical consumers of media, ethical users of AI in ministry and academic work, and creative communicators capable of producing impactful digital pastoral content.

The training also emphasizes building authentic online communities rooted in synodal values and preparing participants as digital missionaries for the Church's evolving evangelizing mission. Post-training support includes AI ministry templates, curated tools, an ethics toolkit, and an alumni resource hub to sustain ongoing collaboration. The program is coordinated by Br. Dr. Jonas Dzinekou, Sr. Elizabeth Nziwa, Br. Dr. Elias Mokua, SJ, and Fr Peter Imaji, O.S.A, PhD, with registration open online on a first-come-first-served basis. This training is still open for August cohorts.
